What's New

The Moorings adds new destinations every year. This year is no exception.

Croatia, Kremik: This is a region of natural beauty, including waterfalls, mountains and forests. There is art, architecture and culture to enjoy and the islands are dotted with picturesque towns – some traditional, others home to giant open air nightclubs and chic waterfront eateries.

Fethiye, Turkey: Walk the streets and take in the sights with a visit to the market bazaar as it immerses you in the Middle East, a kind of magical transport back in time when Fethiye was a thriving trading port. In the center of town is the Tomb in the Sea, a sarcophagus sculpted in ornate designs, and above on the hilltops are the remains of what once was a Telmessian and Roman city.

Vounaki, Greece: You'll find some of Greece's best cruising on the Ionian Sea between Meganisi and Kalamos and its wooded and hilly islands with isolated coves, unspoiled beaches and scenic villages and towns. The history of the region is reflected in the churches and monasteries and in the architecture. A Vounaki power yacht charter promises some of the best cruising in the Ionian Sea.

A NEW WAY TO GET THERE

514 Powercat: We've added a new power catamaran to the fleet. It was designed with one goal in mind - to provide the best power cruising yacht possible. We work with renowned designers and builders to produce a yacht for comfort, ease of use, convenience and performance. This four-cabin yacht includes a full complement of equipment, from snorkeling gear to fully equipped galleys, to easy-to-use navigational aids. Also featured are full entertainment centers, fully air-conditioned expansive and inviting interior spaces that include luxurious staterooms with queen-size beds and en suite lavatories and showers.

Power your yacht or leave it to us

Whether you want to skipper your own powerboat or sit back and relax while a professional captain takes the helm, we are more than happy to accommodate. It's your vacation.

BE A CAPTAIN

Imagine taking the wheel in your hands. There's no certification required to skipper your own yacht. If your skipper skills are rusty, you can enroll in a two-day "Learn and Cruise" course, or take advantage of our complimentary "friendly skipper" program — a skipper will join you for half a day and brief you on your yacht and your itinerary.

HIRE A SKIPPER

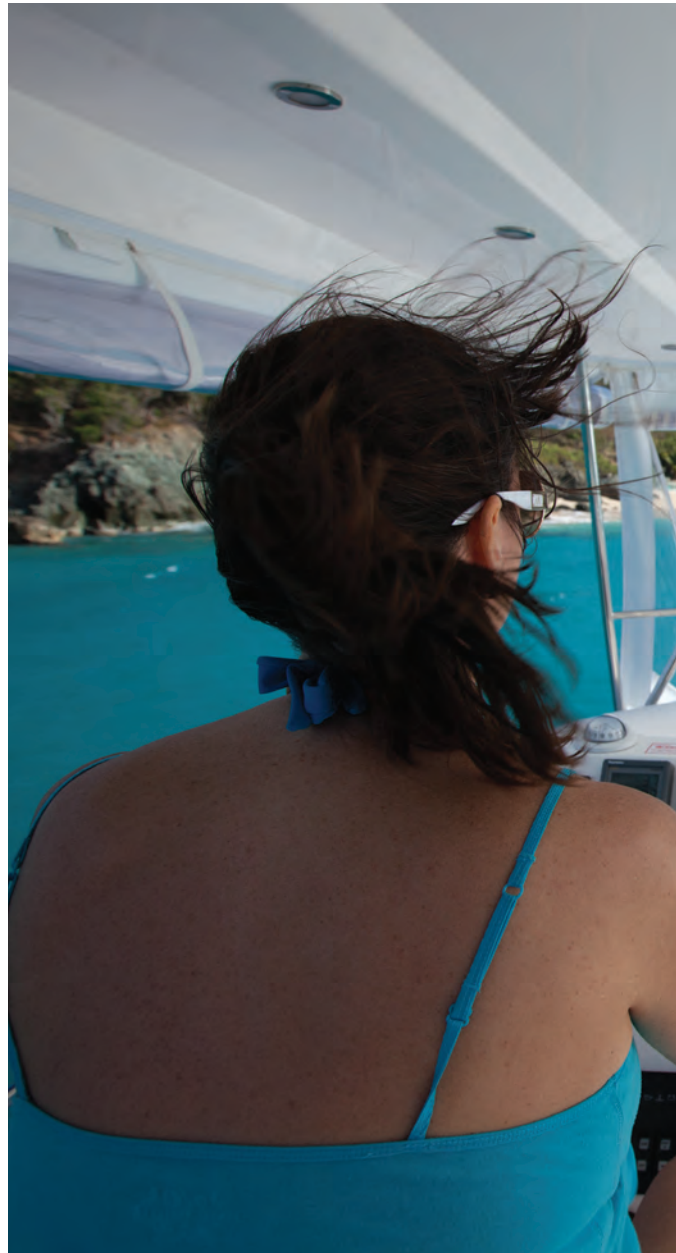

If you prefer a skilled skipper to take you to your destinations, you can charter a yacht with one for a portion or your entire trip. This is the relaxing, worry-free option, free of navigation and full of time to enjoy the ride. There's plenty to see out there, and you really don't want to be out in the open water, looking for someone to ask for directions.

ALL-INCLUSIVE

On these charters, you'll never have to lift a finger — and all food and beverages are included. Your captain will navigate your cruiser and your private chef will prepare meals, all while you enjoy vacation with your family and friends.

"Our vacation aboard The Moorings 474 Powercat in the BVI was the most fabulous vacation all eight of us ever took. From the time we first started working with The Moorings, until we pulled away in the cab, the service, the boat and the area were completely fabulous. Truly was the best vacation ever and we have been around the world!"

— Anne Pingree

We'll do the grocery shopping

Relax, you're on vacation. You can put away that grocery list and shop with us. We provide fresh meats, seafood, fruits and vegetables that stock you up for your trip.

From steak and potatoes to baked risotto, we know the right ingredients to make sure you feel at home, even as you travel to the most exotic locales on the planet. We even provide supplies for special occasions, including specialty packages of the non-food variety. That's reason enough to celebrate. For more information, visit store.moorings.com.

The Moorings offers:

- **Charter Starter Kit** (included with all charters): This kit includes condiments, olive oil, spices, kitchen supplies, paper plates, napkins, disposable wipes, aluminum foil, charcoal, lighter fuel and cleaning products.
- **Easy-on-the-Cook**: Like all of our packages, it will be based on your preferences, and includes all of your breakfasts, lunches and snacks for each day and typically includes one dinner.
- **Split**: Our most popular personalized option, including breakfast, lunch and snacks for each day and dinner for half of your time onboard.
- **Full**: For the water lover who wishes to dine onboard for all meals.
- **Sundowner**: Available at select destinations for travelers arriving late or taking an evening start. It includes beverages and evening snacks.
- **Sunriser**: Generally taken when you schedule an evening start, this package includes a light breakfast like croissants, jam and cheeses with beverages.
- **A-La-Carte**: Allows you to select from a list of groceries available for purchase individually prior to your arrival.

Gear up for more

We know you'll spend as much time in the water as on it. Every charter comes equipped with snorkeling gear, but you'll love some of the additional activities available through The Moorings.

KAYAK RENTALS

Glide into hidden passages too narrow for larger boats. Kayaks stow easily on deck and give you a chance to explore secret waterways.

STAND-UP PADDLEBOARDS

Give the fastest-growing new watersport a go. Slide smoothly on the surface of the water while you take in the surroundings. It's a great workout, and it's a little like walking on water.

FISHING

Hook up with great cast of fishing packages, featuring reels, offshore rods, plus all you need to catch your own fish of the day. You never know what you might catch out there in that vast blue sea. Make it a competition for the biggest or most beautiful fish brought on the boat that day.

SCUBA DIVING EQUIPMENT & BEYOND

We offer dive packages and scuba equipment in several locations. Surfboards, floating mattresses and other gear are also available in many destinations.

ELECTRONICS

Stay connected while you're away with our Wi-Fi Laptop package, which includes laptop, with wireless internet, DVD, music and an inverter to keep your equipment charged. Make delicious fresh smoothies and frozen Margaritas with our Blender package.

The Moorings offers self-skipped sailing and power yacht vacations in 22 destinations worldwide. A bareboat charter allows those with some sailing experience to plan their itinerary and explore the wonders of a cruising area while captaining their own yacht. We bring you the newest yachts from world-class builders and the latest features such as color chart plotters, autopilots plus generators and air conditioning on select yachts. Choose from 37–58 foot yacht models, each designed for easy handling and comfort on the water. Set sail for a vacation you'll never forget.

CREWED YACHT

Our crewed yacht vacations are everything adventure travel should be. Each day and night, you'll enjoy the nautical skills of an experienced captain and the sophistication of a chef who will surprise you again and again with meals made from local ingredients. Our crews' professionalism, training, qualifications, hospitality and attention to detail are matched only by our desire to free you from daily concerns so that you may fully embrace the experiences before you. Prepare for a vacation with exquisite attention to personal service in idyllic surroundings. You've never been on a trip like this.

More than 40 years at the Helm

It could be our love of the sea or our passion to find the perfect cruising destination, but for more than 40 years The Moorings has created cruising vacations like no other. Your boat is a ticket to soak in diverse cultures, savor pristine coastlines and maybe even learn something new about yourself. Out on the water your time is key and our service is here to make each moment count; because every memory you have should last a lifetime.
